

Nutrition Consultant

The Radiation Center of Greater Nashua is looking for the right candidate, on a per diem basis, to support the nutritional needs for the patients who are undergoing care with us.

Nutrition can be an integral part of treating cancer and that requires the skill and expertise of a trained professional. Oncology nutritionists work as part of a medical team in an effort to defeat all forms of cancer. This is a job of high importance and can be very rewarding.

Oncology nutritionists devise nutrition plans that typically aim to achieve the following results:

- Improve energy
- Build strength
- Maintain body weight
- Reduce risk of infection
- Accelerate recovery time
- Eliminate nutrient deficiencies

Requirements:

Board Certification

5+ years experience, preferably in the field of Oncology

If interested in learning more about this opportunity please reach out to Elizabeth Gray, Executive Director at egray@radiationcenternashua.org
